Start

Roll the die to see how many steps you may take. Each step has an instruction. If the instruction is something Jesus might ask you to do, do it, and remain on the space. If you choose to obey the instruction and it is actually not something Jesus would have you do, you must go backwards two spaces. (The lesson leader decides if the choice was a good or bad one.) You win by continuing to increase your faith. Remember that whenever you make a mistake, you always will get another turn and be able to make a better choice to strengthen your faith. All family members should encourage other players to strengthen their faith.
